FOR YOUR INFORMATION: Please note that "Department Average" for each rating question is calculated using all sections in your department. This may include both Faculty and GSIs depending on whether the department has selected a question item to be used for both.

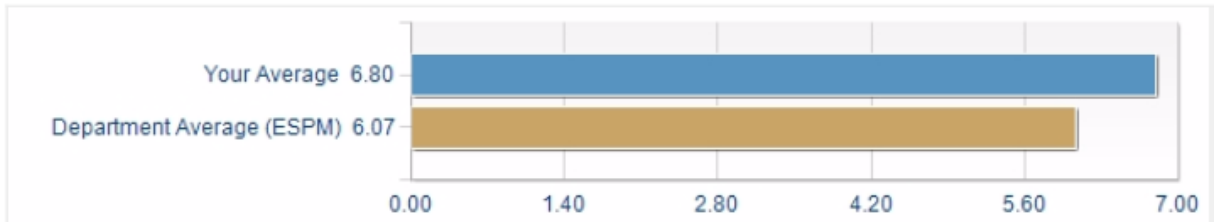

RATING QUESTIONS (QUANTITATIVE)

UNIVERSITY WIDE QUESTIONS: The quantitative items in this section are asked across all courses at Berkeley.

Considering both the limitations and possibilities of the subject matter and the course, how would you rate the overall effectiveness of this graduate student instructor?

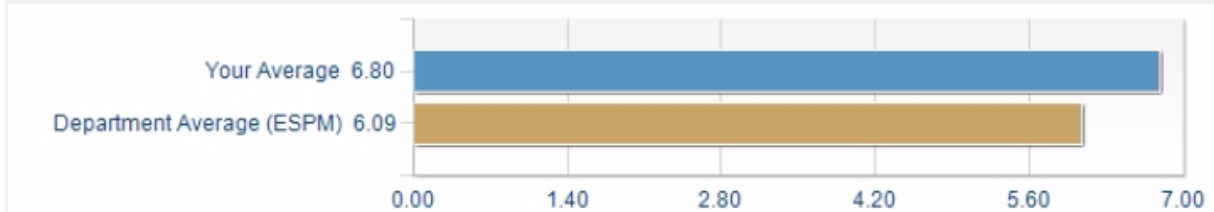

Considering both the limitations and possibilities of the subject matter and the course, how would you rate the overall effectiveness of this course?

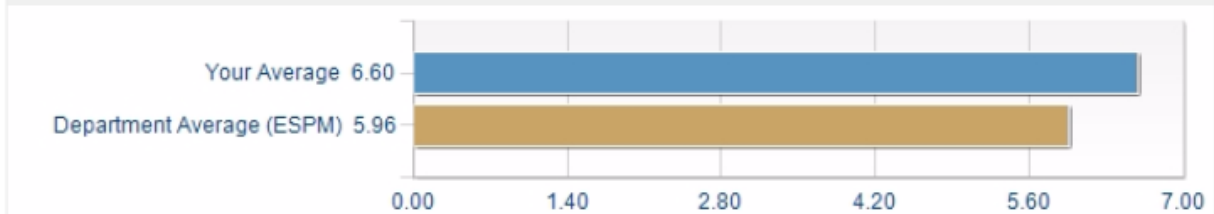

Please rate your ESPM GSI for each of the following.

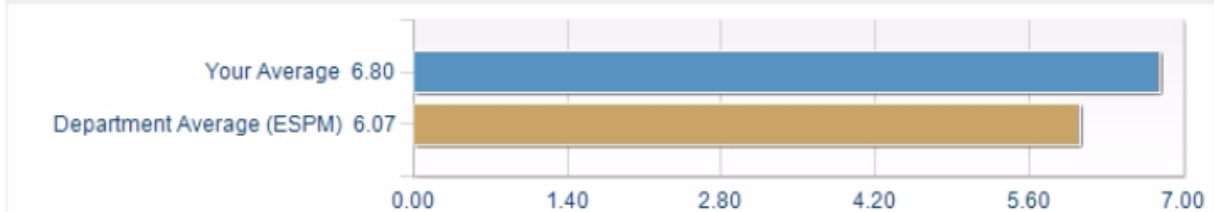

1. How would you rate the instructor's capacity to promote critical thinking?

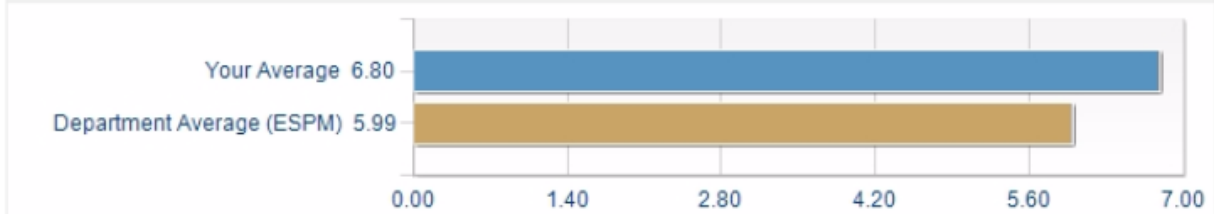

2. How well was the course material presented?

3. How well did the instructor utilize innovative learning approaches and community-based learning?

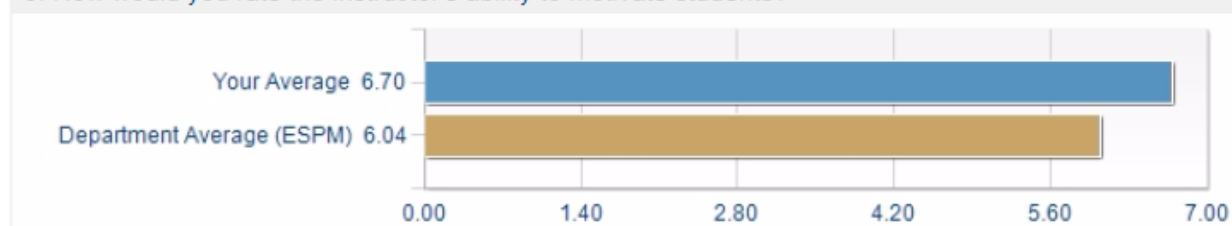

4. How would you rate the instructor's command of the subject area?

Please rate your ESPM GSI for each of the following. (continued)

5. How would you rate the instructor's ability to motivate students?

OPEN ENDED QUESTIONS (QUALITATIVE)

DEPARTMENT PROVIDED QUESTIONS: Questions in this section were selected by your department for inclusion on this evaluation.

What comments can you offer on the instructor's performance as a teacher?

Comments

Great teacher! Very thorough and detail-oriented.

Boroka really knows how to use time efficiently during discussion, and thus every work we do is well-planned. She's very organized and has great foresight as to what we as students need. She's very flexible and considerate too, which allows us to make use of the time to prepare for anything we needed to do before lecture. She gives insightful advice when we have any concerns or questions. She also has a great sense-humor and thus class is very lively.

The professor did a great job of presenting the material in a meaningful and engaging way.

Boroka was extremely helpful and effective at providing us with resources to fully understand course material.

What did you find most useful about section?

Comments

The collaborative google doc that held key themes and other helpful things created and updated by our GSI.

We were able to discuss the materials from the lectures with the class and the questions we filled out were really helpful for learning the materials.

The handouts that serve as excellent recaps, the shared google doc where we contribute our notes and questions, and the efficient use of time during discussion.

Having a mixture of material material and instruction types instead to lecture the entire time.

The chance to clarify before each lecture, where we're at and what we're expected to do next.

Gives time to do the work required by the course.

This section gave us time to ask questions about material and deepen our understand of the readings.

Collaborative learning environment;

The only section class I've had at Berkeley where I've actually learned something;

Our GSI was straight forward, gave us clear guidelines on what to do to succeed in the class and it was extremely helpful!

The summaries and collaboration of group work as well as the powerpoints from the professor were all helpful!

Comments on class organization:

Exceptional organization

Comments on class organization:

a lot of unstructured time to work on assignments → both nice but sometimes wished it was more structured

Comments on class organization:

ORGANIZED, IT WAS NICE TO GET AN OVERVIEW IN WHAT WE WERE GOING TO DISCUSS

ALSO THE SPLIT BETWEEN HANDS-ON AND CONCEPT DISCUSSION WAS PLEASANT

Comments on class organization:

Comments on class organization:

well organized. I had some confusion about filling questions about an assignment.

Comments on class organization:

Class organization has been good, as there is always a clear goal with class, and a plan.

Comments on class organization:

Discussions always had a purpose. However, some days were not fully utilized.

Comments on class organization:

I don't think section should be twice a week - most days, we had not very much to do and were in-out of section early.

Comments on class organization:

Very well-organized! comfortable and encourages students to speak and work out their ear.

Comments on class organization:

I felt the beginning of the semester (2 days) was much more interesting.

Comments on class organization:

the whole course is planned on the first day. But grading criteria is very grey-area-ish

Comments on class organization:

Narrative Responses

Comments on class organization:

very organized

Comments on class organization:

It cultivated an environment that students can openly discuss ideas-

Comments on class organization:

-Lecture was structured but section time-use was unstructured and kind of ineffective

Comments on class organization:

Organized and flexible

Comments on class organization:

I found the reading days incredibly helpful and the work days less helpful

Comments on class organization:

Discussion section enabled us to ask questions, and clarify whether class was confusing. I think discussion section was useful but maybe a few more should be included

Comments on class organization:

I liked how we had a reading day and then a working vocab day.

Comments on class organization:

ALWAYS ORGANIZED AND HAD WORKSHEETS PREPARED FOR US.

Comments on class organization:

I feel that section provides a nice balance for lecture. Lecture is more information-heavy. Section is open for discussion and questions.

Well organized

Comments on class organization:

It's well organized. We are informed of the outline for the class day/week.

Comments on class organization:

well organized, follows the reading from class, there is no difference between the class and the section in terms of the material, which really helps understanding.

Comments on class organization:

The class organization made a lot of sense if it flowed so that I could understand better.
